

## Code Test – CRO Frontend Engineer

*If you don't have a GitHub account, please sign up. Otherwise, feel free to create a public repository, commit your code therefore we can review.*

### Build a responsive web component for sign-up & sign-in.

Please feel free to introduce any animation and interaction (such as tips, error handling) by using your preferred technologies to sweeten the user experience.

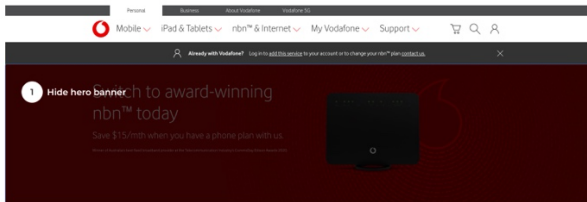

- To sign up, we will need an email address, password, re-type password (to detect a password strength is a bonus), full name and age range.
- To sign in, we will need to verify the email address/user combines with the password. Please guide us on how to achieve the scenarios of successful login and credential error.
- Dimension of this web component's width is 300px on mobile then max width as 400px on other device types;
- Font type and size, colour theme and any other styles are purely up to your preference. Please think through as a UX, build it as a Dev, then test it as a User.

### Reshape NBN Plan page

Please go to <https://www.vodafone.com.au/nbn>, and **ONLY** use your JavaScript snippet to run in the console in order to make the following changes at once:

- Hide hero banner;
- Re-layout feature list items as per requested on desktop view ONLY;
- Automatically check address "Level 9 177 Pacific Highway, NORTH SYDNEY NSW 2060" that has been provided in instruction;
- Add "Most popular" tag to Home Fast plan;
- Replacing existing HTML by below that we mimic the fetch from an API call :  

```
<p>Vodafone nbn™, with unlimited data, is designed to keep you GOING and GOING.
<script>console.log("do you see me? what you should do to me?");</script> On plans with the Vodafone
Wi-Fi Hub™ 2.0, you'll be connected to the internet from day 1 and you can power on through
interruptions with 4G Back-up. Get a nbn connection today with Vodafone nbn™ - winner of Australia's
best fixed broadband provider at the Telecommunication Industry's CommsDay Edison Awards
2020.</p><p>Sign up online below or call us on <a href="tel:1300808808">1300 808 808.</a></p>
```
- Expand "Terms and Conditions" accordion

## Vodafone nbn™ plans

You'll need a compatible modem to connect to your nbn™ service. End of call.

**Have a question?**  
Call us on 1300 801 122 or request a call back at a time that suits you.

**5 Replace HTML as provided**

You will typically experience slower speeds than the maximum connection speed available on your plan. Typical connection speeds are based on the speed of the nbn™ network and your own equipment. Speeds may vary during peak times and at other times. Speed will vary on a number of factors such as technology type, plan choice and network congestion.

**Frequently asked questions**

- What happens after I've signed up to a nbn™ Plan?
- Why should I choose Vodafone to get an nbn™ plan?
- Can I keep my landline phone number with Vodafone nbn™?
- Will I save on a nbn™ plan if I already have a plan with Vodafone?
- What is nbn™?
- Will I have to switch to nbn™?
